Right-of-Ways to be Improved/Description of Work

This permit is hereby issued to the above applicant for placing, building, or constructing improvements within the right-of-way of a Columbia City street in strict compliance with the approved plans attached hereto and in conformity to the terms, conditions, agreements, stipulations, and provisions contained in the application and this issued permit. The rules and regulations governing facilities to be permitted upon the City's street rights-of-way as set forth by the City ordinances and applicable regulations and laws or orders, must be followed.

The contractor shall provide the City with proof of workers' compensation and general liability insurance with an aggregate coverage of \$2,000,000 for personal injury/death and \$500,000 for property damage, naming the City as an additional insured. Permittee and Contractor shall comply with the following conditions:

- 1. Work shall be performed in accordance with the plans and specifications approved in advance by the City and conditions of approval, if any, attached hereto. Improvements shall be constructed under the inspection and to the satisfaction of the Public Works Superintendent and/or City Engineer. The City may require changes in typical sections and details in the public interest if unusual conditions arise during construction to warrant the change.**
- 2. Work shall not commence until after notification to the City and written authorization to proceed is granted, and if work is discontinued for more than 30 days for any reason, work shall not be resumed until after the City is notified and authorization for the work has been granted.**
- 3. Permittee and Contractor shall fully indemnify, save harmless and defend the City from and against all liability, claims, demands, costs and expenses, including attorney fees at trial or upon**
