

Members Present- Chairman Josh Fromm, Gary Hudson, Kelly Niles, Chief McGlothlin, City Administrator Leahnette Rivers and Public Works Superintendent Micah Rogers

Meeting Called to Order at 6:05 pm

Block Captains- Working on putting key people in place during an emergency who can make a basic assessment. These minimally trained citizens will assess their neighborhoods for Death, Injury, Damage, Water, Power, and Gas during a large catastrophe. Chief Mike will be working on the assessment check sheet and will publish it. Micah came up with “The Yellow Box” idea. It will contain the Block Captains supplies to do their job and will act as a curbside pickup box for public works to procure the documents. It is also highly visible. The idea was well received, and we will be moving forward with it. As soon as all the elements come together, Gary will help design training and recruitment procedures.

The city’s new mitigation goals have been published and handed out.

At the next meeting on Monday, June 25, we will be having a grand unveiling and demonstration of our beautiful new emergency generator.

Adjourned at 6:40 pm.
