## **PUBLIC NOTICE FOR A CATEGORICAL EXCLUSION**

The Oregon Health Authority - Drinking Water Services has determined that the proposed drinking water Reservoir and Distribution Line Improvements Project for the Columbia City Water System conforms to the criteria and requirements of Oregon Administrative Rules 333-061-0063 and the supporting environmental review process guidance manual. The project, which involves replacing approximately 3,500 feet of cast iron pipe with new PVC pipe, adding new fire hydrants, refurbishing an existing steel water reservoir by coating the tank inside and outside and making structural repairs as needed, adding seismic upgrades to two steel water reservoirs, and adding level instruments and data storage, is therefore categorically excluded from further environmental review under the Drinking Water Revolving Loan Fund program as allowed in the above referenced rules. A copy of the Categorical Exclusion and information upon which it is based is available for public viewing at:
