Topics:

Minutes of the Hazard Mitigation Planning Group's September 24, 2018 meeting were approved unanimously, after being so moved by Anne Parrott and Dan McGraw; respectively.

Discussion took place on the final draft review of the Hazard Mitigation Plan. A final edit consisted of a font change to table C-2 within the plan. Upon completion of this final edit the planning group gave its approval for submittal to City Administrator Rivers and City Council for their review and approval.

Discussion took place regarding prioritizing the review and update of the City's EOP versus the drafting of the City's COOP. After discussion and input from Steve Pegram it was agreed that the EOP will be updated first and then COOP drafting will start as a second priority.

In "Other business" the planning group discussed the invitation of City

Administrator Leahnette Rivers to the next planning group meeting in order to recognize her support prior to her retirement. Chief McGlothlin said that he would convey this invitation.

Discussion also took place regarding EMP threat information which had been forwarded to the planning group from an outside source. After discussion it was decided that, due to the limited threat as well as the ability to effectively mitigate the issue, the efforts of the planning group were best served in other planned activities and responsibilities.

Adjourned at 6:30 pm.
